### Here and There

Editorial By ALEX. H. WASHBURN

ASKED Thursday what would be done for the unemployed, Arkansas money runs out Governor Futrell replied: "They'll have to do without. The state can't help them after the money runs out."

### Ethiopia to Send Secret Envoys to Capital of Japan

Purpose of Addis Ababa Mission to Tokyo Is Unrevealed Thursday

### MARSHALING ITALY

1,200,000 Men to Engage in Maneuvers in Northern Provinces

ADDIS ABABA, Ethiopia — (AP) — Governmental plans for an Ethiopian mission to Japan, to leave Addis Ababa soon, were disclosed Thursday. The mission, an authority said, would be headed by Daba Birrou, former Foreign Office official. The purpose of the Ethiopian party will be kept a close secret.

### "No Help Needed"

ROME, Italy — (AP) — With secret military maneuvers involving perhaps a million men scheduled shortly for northern Italy, an Italian government spokesman said Thursday that Italy needed no outside help, financial or otherwise, in the struggle with Ethiopia.

Clothes Torn Off Innocent Bystander During Dallas Brawl

DALLAS, Texas — (AP) — Striking women garment workers stripped four women naked, partly clothed six others and chased them through the streets spanking and scratching them in wild rioting Wednesday. Six persons, including four policemen, were injured. The outbreak marked a renewal of disorders in a six-month-old walkout.

### Lawson Smith Is Returned to Jail

Fugitive Recaptured, But Pal, Bob Barnard, Is Still at Large

LAWSON SMITH, former Hempstead and Nevada county man, was back in the Magnolia jail Thursday following his capture late Tuesday at Chidester by a Nevada county deputy sheriff. Smith recently escaped from the Magnolia jail with Bob Barnard when they tied four blankets together and slipped to the ground.

### Japs to Promote Cotton in China

10-Year Program of Planting and Manufacturing Revealed There

SHANGHAI, China — Japan's intention to create vast cotton production and manufacturing base in North China, was announced by Tatsuchi Fumitsu, managing director of the Japanese Cotton Spinners Federation in China Wednesday. Fumitsu, former consul general at Shanghai, and popularly known as the "dictator" of Japanese cotton interests, said that Japan's new political and economic deal with North China created conditions making possible inauguration of a 10-year cultivation of raw cotton program and manufacturing enterprise, designed to give Japan complete domination of the world cotton industry.

### Planning Board to Meet Thursday on WPA City Program

Five Members Announced by Mayor — Projects to Be Discussed

### A COUNTY PROGRAM

4 Emmet Men Seek Completion of CWA Beard's Chapel Road

Announcement of the first meeting of the City Planning Board, and the agitation of county projects designed to follow up uncompleted CWA work on school-bus roads, were developments Thursday on the Works Progress Administration (WPA).

The completed Hope planning board was announced Thursday by Mayor Albert Graves as follows: A. H. Washburn, chairman; B. R. Hamm, Syd McMath, Mrs. J. R. Henry and Robert M. Wilson.

The board was to meet at 5 o'clock Thursday afternoon for preliminary discussion of projects to be sponsored within the City of Hope either by the city government or in association with individuals. WPA pays for labor, but most of the material cost must be borne by the sponsors.

Meanwhile, a committee of four men appeared in Hope Thursday morning looking to completion of the Emmet-Beard's Chapel road, an unfinished CWA project.

A school-bus and rural mail route, this road was given 1 1/2 miles gravel surface on either end, with an intervening stretch of 3 miles dirt road.

Onis Landers, of Beard's Chapel, and J. B. Youmans, Pam L. Garland and Frank Halton, of Emmet, were in Hope Thursday seeking an interview with WPA officials on requirements for making this a county project.

Similar requests are being formulated elsewhere in the county, for completion of old CWA rural road projects, according to reports to The Star.

### U. S. Chamber Hits F.D.R.'s Tax Bill

Excess Profits Tax Is Termed "Inequitable" and "Uncertain"

WASHINGTON — (AP) — Completing a general assault on the tax bill passed by the house at President Roosevelt's request, the United States Chamber of Commerce Thursday denounced excess profits taxes.

Ellsworth Afford, former legislative counsel for congress on tax matters, spoke for the chamber at the senate finance committee's final hearing on the legislation.

"Inequitable" and "uncertain" were the words he applied to the excess profits levy which the house adopted in lieu of the broadly graduated corporation income rates suggested by the president.

An administration resolution to close the courts to gold clause suits against the government after six months, was passed Thursday by the senate.

The measure, attacked by its opponents as a repeal of the bill, goes back to the house, which had already passed it, for consideration of senate amendments.

The senate vote was 53 to 24. A poll of Democrats on the Guffey coal bill was reported authoritatively Thursday to have raised grave doubts whether the measure would pass the house.

The actual figures were closely guarded, but it was said that the majority of the 519 Democrats indicated they would vote against the bill if it lacked full committee approval.

### 2 Arrested in Raid on Hempstead Still

Wallace Fulton and Son Burt Held for U. S. Arraignment

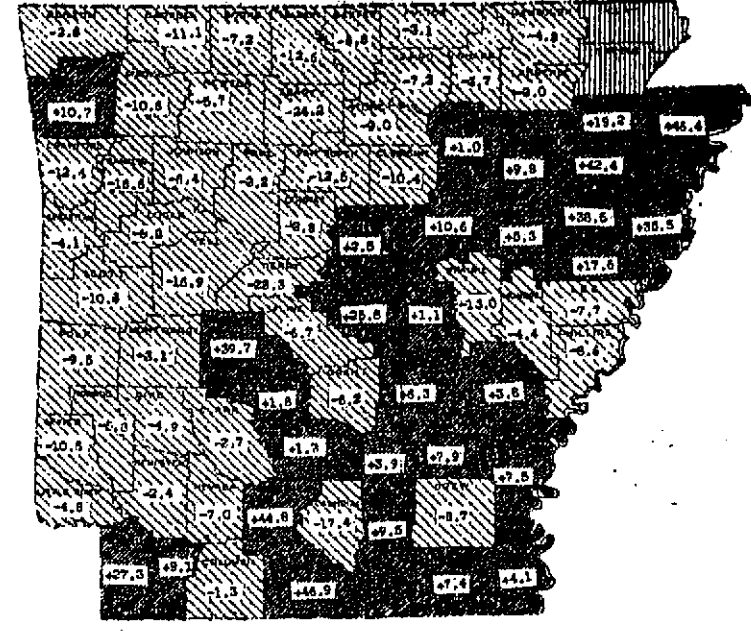

Hempstead and Pike county officers tramped six miles through dense wilderness of the Little Missouri river bottoms to locate a whisky still Wednesday in the extreme northeast corner of Hempstead county.

At the still officers arrested Wallace Fulton and his son, Burt. They were held Thursday in the Washington jail awaiting a hearing Friday before U. S. Commissioner Phillips in federal court at Texarkana.

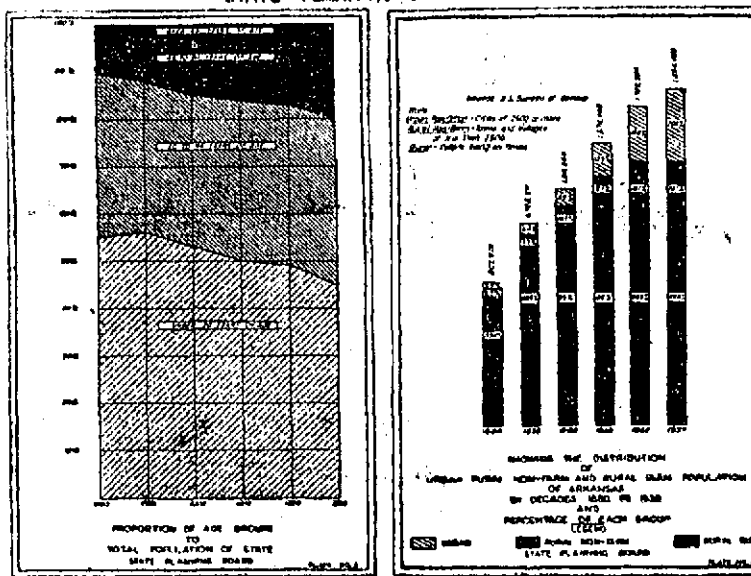

The still was found in operation. Six gallons of liquor was seized. Approximately 200 gallons of mash was destroyed.

Raiding officers were, Reginald Bearden and R. O. Robins, Hempstead deputies, and Sheriff Coker of Pike county and a deputy whose name was not learned here.

### 3 1/2 Millions for Erosion Campaign

Does Not Include Additional Army Budget for 18 CCC Camps

CONWAY, Ark. — Expenditures of \$3,500,000 in Civilian Conservation Corps work in Arkansas, within a year are anticipated, according to a budget received by Fred C. Newport, regional director of Soil Conservation Service, here at Conway.

Mr. Newport said that the above amount will be in addition to expenditures by the United States Army for the 18 CCC camps established for the Soil Conservation Service in Arkansas. Nor does the above amount include the headquarters' expense and operating costs of the two demonstration projects in the state, East Cadron Creek Project, No. 17, and Crowley Ridge, Project No. 25. These estimates are also in addition to the \$3,500,000 mentioned above.

The budget outlined to Mr. Newport includes \$200,000 for equipment, transportation facilities, tools and other supplies for 17 new CCC Soil Conservation Camps now being established in Arkansas. This is now in process of disbursement. For supervisory personnel and for materials to be used in the 18 camps, the allotment is approximately \$3,500,000 per camp per month — \$63,000 per month of \$756,000 a year. This \$1,046,000 will be available for disbursement through the Soil Conservation Service headquarters in the CCC Conservation Service program.

The Army's payroll to the 3,600 enrollees in the 18 camps, under supervision of Major M. R. Bauer, District Commander of CCC, will amount to \$120,000 a month or \$1,440,000 a year. Food for these men will cost about \$30,000 a month or \$360,000 a year. The costs of clothing and incidentals for camp maintenance will bring the Army's expenditures for CCC Camps in Arkansas doing SCS work for the year well above the \$3,500,000, making a grand total exceeding \$5,500,000. In the Soil Conservation Service, there will be employed, Mr. Newport said, 72 technicians to direct engineering, forestry, agronomy, and soils and 126 semi-technical and skilled personnel. For regional supervision and contact between the headquarters at the 18 camps, 13 supervisors and inspectors will be employed — these in addition to specialists.

### J. K. Sale Elected Legion Commander

Hope Post Discusses Construction of Legion Hut Here

Election of officers and discussion of the possibility of obtaining an American Legion hut featured the meeting of Leslie Huddleston post at Hope city hall Wednesday night.

J. K. Sale was elected post commander. He succeeds O. R. Williams. Other new officers:

W. M. Ramsey, senior vice-commander; B. R. Hamm, junior vice-commander; B. C. Hollis, finance officer; Robert Wilson, service officer; C. E. Cox, chaplain; Joe Reese and E. E. Franklin, color bearers.

B. R. Hamm was appointed chairman of a committee to investigate possibilities of obtaining an American Legion hut.

Concluding the meeting, delegates to the state convention to be held at Little Rock were elected. They are: J. K. Sale, Alvin Robinson, W. M. Ramsey, B. R. Hamm, B. C. Hollis, Arthur Wade, Dewey Hendrix, Altemate — Curry Allen and A. B. Kirk.

### Land Exploitation Done, Immigration No Longer Builds

State's Growth Lags Behind That of Nation — Youth Leaving the Farm

### NEW OPPORTUNITY?

Planning Board Declares State Must Meet the Farm Crisis

That Arkansas is passing from the dynamic to the static is the unescapable conclusion to be drawn from the "Trend of Population in Arkansas" report just issued by the State Planning Board.

During the decade from 1920 to 1930 the excess of births over deaths in the state was 181,046, while the actual gain in population was only 102,273. This shows a loss in population of 78,768 through Arkansas leaving the state. During the ten years prior to 1930 the number of persons emigrating from Arkansas would have made a city almost the size of Little Rock.

At the approach of the end of the state's first century of statehood it is interesting to note that relation of Arkansas growth with the United States as a whole. From 1840 to 1890 the United States had a growth of only 26.7 per cent while Arkansas increased in population 105.27 per cent.

The obvious deduction from this is that during this period the rapid development of this section came about through the early exploitation and utilization of its land resources. Another influence that tended toward rapid development was the large number of navigable streams penetrating the rich lands of the state. From 1890 the picture changes. Between that year and 1930 the United States increased in population 61.5 per cent while Arkansas gained but 41.39 per cent.

### Farm Population Dropping

Although the slowing of growth and population loss is serious enough, from the wealth increase viewpoint, the shift of population within the state presents an even less healthy trend. The farm population of Arkansas is decreasing and has been for the past 20 years. Admittedly such drifts of population from the farm are not new nor are they confined to any one section, still they must serve as a warning of serious social and economic restlessness.

Between 1910 and 1920 52,525 persons left the farms of Arkansas. This equalled four out of every hundred persons on the farms in 1910. Between 1920 and 1930 27,152 persons, or 2.3 per cent of farm population, sought opportunity away from agriculture in Arkansas. This was not the worst side of the picture, however — it was the farm youth leaving the farms.

The report states: "Statistics indicate that this movement is being carried out by the shift of population to the cities. This, of course, raises the average age of those remaining on the farms. This means a shorter expectancy of earning years of life. All of which is to the definite economic loss to agriculture in Arkansas."

The natural question facing the tax-paying citizens is what is to be done about it.

### Educational Duty

The tax-payers maintain schools and colleges to prepare the youth of Arkansas as citizens and economic units and each boy and girl so educated who emigrates exports a definite amount of the state's cash capital that went in to pay for his or her education. It would appear quite obvious that in failing to provide opportunity at home so that the boys and girls could find use for their education in Arkansas the tax-payers had nobody much to blame but themselves if these young folks do leave to hunt for greener pastures.

It seems equally clear that advertising to bring new-comers to Arkansas will be of little avail unless the advertising is backed up with opportunity that will make it inviting for both native sons and daughters to remain and strangers to settle in our midst.

This report of the State Planning Board should serve as a stop, look and listen sign to the whole citizenship of this state.

### Mercury Hits 104 at 3 o'Clock Thursday

Old Man Summer twisted another knot in the mercury column Thursday when he sent it to 104 degrees — 3 higher than the preceding day at the same hour, 3 p. m. Cotton did well. Humans wilted. It was a new "hot-test hot" for this season.

No one knows when coal was first used for fuel.

### Man With \$2,000 Is Facing Pauper Grave

Because a dead man can sign no checks, the possibility of a pauper's burial for W. N. Houser loomed here Thursday.

Houser's body has lain in the morgue for a week. A bank book found in his possession showed that he had \$2,000 on deposit in a Los Angeles bank.

But efforts to have the money released for the bank, or the obtaining of assurance that burial expenses would be paid, have been unsuccessful, Sheriff Jim Bearden announced.

Although \$150 was found in Houser's possession, a big portion has been used in communicating with relatives, and other expense has been necessary.

### To Offer "Relief" While Cash Lasts

"After That the Unemployables Will Have to Do Without," Futrell

LITTLE ROCK — (AP) — The State Welfare Commission executive committee Thursday announced plans to take over the care of Arkansas' unemployed — "bills if the federal government refuses to reconsider its decision to discontinue relief by August 10."

Governor Futrell, who called the conference, said later that the state would spend what money it had to care for the unemployables.

Asked what would be done then, the governor replied: "They'll have to do without. The state can't help them after the money runs out."

### Federal Relief at End

WASHINGTON — (AP) — Expressing renewed determination to end federal contributions toward direct relief by November 1, FERA officials said Thursday they would cut three more states off the dole September 1.

Officials said similar action is planned for eight additional states September 15 and 30, and the others on October 1.

### 2 Hope Melons to W.O.W. Hospital

Local Lodge Dispatches Pair of Hefty Prized Tom Watsons

Two heavyweight Tom Watson watermelons, with a combined weight of 150 pounds, were shipped Thursday to the W. O. W. sanitarium at San Antonio, Texas. The melons were sent as a gift by the local W. O. W. lodge.

The local organization annually sends one or more melons to patients in the San Antonio hospital, John W. Ridgill, member of the lodge said.

### Johnson Leads on Mississippi Vote

Bare 1,000 Ahead of White in Primary Race for Governorship

JACKSON, Miss. — (AP) — As the total vote on the tabulation sheets passed the 300,000 mark, Paul Johnson, Hattiesburg lawyer, and Hugh White, Columbia lumberman, settled down to a close race for the lead in the gubernatorial primary election.

The vote from 1,555 of the 1,638 precincts gave Johnson 96,112, and White 95,057.

Dennis Murphy, lieutenant governor, running for the governorship, was in third place, over 10,000 behind the leaders.

### Johnson Takes Lead

JACKSON, Miss. — (AP) — Paul B. Johnson, south Mississippi lawyer who assertedly received a last-minute endorsement from Senator Huey P. Long, Wednesday night held a 52-vote lead in the race for the Democratic gubernatorial nomination as the vote from nearly two-thirds of the state's precincts had reported unofficially.

Two fatalities from shootings accompanied the voting Tuesday and the counting Wednesday. On the coast, officials recovered an election box which was snatched by three unidentified men late Tuesday but the contents of the box had not been molested.

At Lambert in Quitman county, Alton Cannon, 50-year-old farmer, was killed by Town Marshal M. M. Omer. Sheriff W. T. Haynes said the shooting occurred at the city hall Wednesday and climaxed ill feeling between the two men over a long period. He said his investigation was incomplete.

Tallahatchie county authorities reported the fatal shooting Tuesday at a Paynes voting booth of Louis Robbins, 68-year-old Tallahatchie resident. Breeland Denley of the Paynes

### First Forecast on 1935 Up 2,100,000 From Last Season

Larger Than Expected, But Secretary Wallace Is Confident

### WILL BE ABSORBED

Present World Demand Level Will Use It Up — Credit for Handling

WASHINGTON — (AP) — In its first estimate of the 1935 cotton crop the Department of Agriculture Thursday predicted a total production of 11,798,000 bales of 500 pounds — 2,100,000 more than last year.

Secretary Wallace simultaneously announced that "adequate facilities" would be made available for the orderly marketing of the crop.

The crop prediction was apparently larger than some officials had hoped, but Secretary Wallace said the administration saw no cause for anxiety.

He said if world consumption is maintained at present levels foreign and domestic mills could be expected to require considerably in excess of 11 million bales of American cotton.

The condition of the Arkansas crop as of August 1 was announced to be 69 per cent of normal, with an indicated production of 864,000 bales.

### No. 4 Meet Held in Nevada County

Camden Delegation Visits Rosston and Waterloo Thursday

A delegation of Camden business men will visit Rosston and Waterloo in Nevada county Thursday, in the interest of completion of Highway No. 4 from Nevada county county line to Rosston.

The delegation will be headed by the Highway committee of the Camden Chamber of Commerce.

Mass meetings are scheduled at Rosston at 2:30 p. m. and Waterloo at 4 p. m. Only 12 miles are incomplete on the Camden Hope highway.

### Sales Tax Strike Ended at Rogers

Merchants of North Arkansas City Are to Begin Collecting

ROGERS, Ark. — Open defiance of the state 2 per cent sales tax law appeared near an end here Wednesday as merchants generally prepared to begin collection of the tax Thursday.

In abandoning their stand and refusing to collect the tax, the group indicated that efforts to bring about the repeal of the law would be continued.

A survey of retailers revealed that one merchant planned to stick to his refusal to collect the tax while two others were undetermined. Others said they would begin collecting the tax. A check some time ago revealed that 36 merchants declined to collect the tax during July, while collections were made by 34.

The recalcitrants said they were changing their stand because the sales tax is likely to be a long affair and they do not feel able to continue absorbing the tax indefinitely. Some of those who refused to collect the tax in July, it was said, plan to make remittance of 2 per cent of their gross sales to the state revenue commissioner, while others indicated they would not make payment.

### Markets

NEW ORLEANS — (AP) — Liquidation by traders wanting out of the market for the bureau report depressed cotton futures one to five points at the opening of the market Thursday.

October began at 11.25, down 25 cents a bale and December was off three points at 11.17, with January at 11.15, May at 11.09 and July at 11.01, showing proportionate declines.

After the first call business was off the way the market settled down to a narrow trading range.

The trade expected a figure approximately 11,400,000 bales, the average estimate compiled from nine private top reports already issued.

The paramount continues to be if or when a loan announcement will be made.

Liverpool was quite and steady Thursday.

NEW YORK — (AP) — Cotton futures opened barely steady, three to seven lower under pre-bureau liquidation and foreign selling, October 11.25, December 11.20, January 11.17, March 11.12, May 11.10, July 11.04.

I wish that there were some wonderful place. Called the Land of Beginning Again. Where all our mistakes and all our hearts aches. And all of our poor selfish grief. Could be dropped, like a shabby old coat, at the door.

And never put on again. We would find all the things we intended to do. Eut forgot, and remembered—too late. Like praises, unspoken, little promises broken.

And all of the thousand and one little duties neglected that might have perfected. The day for one less fortunate. —Selected (by request).

## THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER

WASHINGTON.—The tax bill is about as popular as a can of sour milk at a picnic. Your correspondent cannot find anyone who is even mildly enthusiastic over any tax program which is likely to emerge out of this Congress.

Nevertheless, President Roosevelt, despite all the horrible mismanagement of the program, remains relatively serene, and the chief secret of his serenity is this:

Roosevelt has high hopes of going into the election next year with a balanced budget.

As soon as the derisive laughter has subsided, your correspondent will proceed to admit that such hopes are not shared by everybody in the administration. But the president has a very distinct idea that business is going to pick up very rapidly, that the national income will go booming, that unemployment and its costs will be materially reduced, and that the yield from current tax rates plus those of the new schedule—which would bring in less than \$300,000,000 additional revenue, under last year's conditions—will produce a Treasury surplus to which he can point with pride.

The idea is that as corporations and individual incomes begin to rise, a geometrically enlarging proportion of the increase will be scooped off in taxes.

F. R. Hurlis a Brick. But it is still worth remembering that revenue was only incidental in Roosevelt's mind when he called for "soak-the-rich" tax legislation from a startled congress.

He was primarily interested in establishing a social principle and hurling a defiant brick at the "big fellows" who had been attacking him savagely.

By failing to meet progressive demands—and the desire of many in his administration—for a comprehensive program biting deeper, Roosevelt avoided widespread accusations that he was burdening business—as well as the bad effects of whatever there may be in that contention.

Slap at Power Trust. The proposal to eliminate tax exemption for corporation gifts to charity was just another Roosevelt swipe at the "power trust," his pet hate. The house bill, however, allowed a 5 per cent taxable income exemption.

Even more unpleasant to the White House was the pricing of the proposed graduated corporation tax from a spread of 6 per cent to a difference of 1 per cent.

The graduation from 13 1/4 per cent to 14 1/4 per cent established the principle of taxing "bigness"—the Brandeis-Frankfurter idea—about as effectively as a nudist proclaims his principles by going barefoot. Expect a fight on this in the senate, with results uncertain.

Another Governor "on Pan". Puerto Rican newspapers are attacking Gov. Blanton Winship with all the gay abandon which used to feature their blasts at Gov. Bob Gore, resigned. Translating freely from a humorous rag pretending to describe renovation of La Fortaleza, governmental palace at San Juan, one finds:

"The palace has 11 apartments—four for sleeping, four for lounging, and three for repose. The governor works in a hammock, with a goldfish bowl full of red herring nearby. There is a hammock in his office for each of his advisers."

Many Would Save Nation. An embarrassment of riches faces the administration as candidates for the country announce themselves against Democratic members of congress who have opposed the New Deal.

For instance, five men have already decided to enter the Democratic congressional primary against George Huddleston of Alabama, leader of the fight against the administration on the holding company bill. Already it begins to look as if the anti-Huddleston vote would be spread around sufficiently to let George walk back in.

Congressman Josh Lee, Will Rogers, and Wesley Dwyer of Oklahoma, are all openly coveting the seat of Senator Tom Gore and other entries are likely. Reports of the candidacy of Rogers, who got to congress because voters thought they recognized a familiar name, caused an unbelieving but amused newspaperman to ask Rogers: "Why don't you stop all these silly rumors about your running for the senate?"

"That's no rumor," Rogers replied. "Ever since I got here I've considered this a training school for the senate."

Henry Ford insists he just "spiced" his 72nd birthday; he didn't observe it. When he gets old he'll take particular notice of it.

Hill to Meet Sampson in Headliner at Fair Park Thursday

A large crowd is expected at Fair Park arena Thursday night to witness two feature wrestling matches. Frankie Hill, who Wednesday night unmasked the "Red Scorpion" at Little Rock, will make his third appearance here. Hill meets Herb Sampson, Shreveport favorite, in the best two out of three falls with a two-hour time limit.

Irish Pat O'Brien, light heavyweight of Waco, is scheduled to meet Bulldog Mallaroy. Mallaroy will be making his first appearance here. Finkie Carrigan, 115-pound negro, will meet "Big John" Hamilton, 140-pounder, in the curtain raiser. The bout is scheduled for four rounds.

The exhibit hall was sprinkled Thursday and will be more comfortable for spectators. The largest crowd to witness a fight program in Hope this summer is expected, due to increasing interest in wrestling here and the promise of a good show.

The opening event is at 8 p. m.

community, was taken into custody in connection with the shooting.

For Free Textbooks. Johnson, a fiery orator who stumped the state with a platform featuring free school books, pushing ahead of Hugh L. White, Columbia capitalist who had led the field of five since the count began shortly after the polls closed.

Lagging some 100,000 votes behind the pacemakers was Lieut. Gov. Dennis Murphree. Hopelessly outdistanced were the other two candidates, Lester Franklin, former chairman of the state Tax Commission who campaigned on a

"share-the-wealth" platform and who claimed the support of the Louisiana "dictator," and Dr. E. A. Copeland of Jackson, whose principal appeal was modeled around a single-tax plan.

Returns from 1,163 of the state's 1,638 precincts gave the following vote:

Johnson 76,658  
White 78,606

Long Acts Late

The report Senator Long had passed the word down the line to his Mississippi friends to support Johnson came from Sol P. McCall, in charge of the Biloxi office of the Louisiana Conservation Commission which issues licenses to Mississippi fishermen who operate in Louisiana coastal waters.

McCall said Long had sent the word to him in a telephone call from Washington the day before the campaign closed. Johnson in his closing speech said the announcement of Long's asserted endorsement "came as a surprise," but added that he welcomed "any support."

Mr. Newport explained that the CCC budget for Soil Conservation work received from Washington recently will come from CCC appropriation in the President's \$4,000,000,000 works relief fund. These funds will not be taken from the Soil Conservation Service budget, Department of Agriculture, under which the demonstration projects at Conway and Forrest City are operated.

## New Bonus Plan in January Proposed

97% Cash Proposal for Next Session Ends Current Vote Talk

WASHINGTON.—(AP)—A new non-inflationary cash bonus plan, embodying almost full payment of the veterans' certificates, was proposed in the senate Tuesday under an apparent bipartisan agreement to let the issue go over until January.

It was introduced by Senators Byrnes, Democrat, South Carolina, and Steiwer, Republican, Oregon, after the Democratic leaders had agreed to make the bonus issue a special order of business in the senate next January.

Byrnes and Steiwer said they would not ask for action on their proposal until that time. The Democratic senator, who has opposed the administration on bonus legislation throughout the session, forecast that a quick vote would be reached then.

Steiwer's participation in the introduction of the new proposal was taken by some as an indication that Republicans would join in the Democratic move to let the bonus go over and speed adjournment.

Under the Byrnes-Steiwer proposal, veterans would get at least 95 per cent of the full cash value of their certificates if the bill were passed today, or at least 97 per cent if it should be passed in January.

The maturity date of the certificates would be advanced from 1945 to 1938 on the theory that they should have been dated from the Armistice instead of 1935. Veterans holding their certificates until November 11, 1938, would get the full face value. There would

## Business Better for July Period

Resists Summer Slump Better Than Usual, Government Reports

WASHINGTON (AP)—Business activity was reported by the Commerce Department Tuesday to have shown resistance to summer-slump influences in July.

"Reports on retail sales and construction activity," the department's monthly survey said, "indicate improvement on a seasonally adjusted basis. Freight car loadings have declined, while the available data do not indicate much change in the adjusted index of industrial production."

"Outstanding among July developments was the sharp recovery in the steel industry. After moving downward from February to the first week in July, operations expanded steadily from 31 per cent of capacity to 45 per cent in the final week of the month."

"Only part of the gain was attributed to the automobile industry which enjoyed a relatively large volume of sales during July."

"The further increase in electric power production was also a favorable indication, although the movement of freight by the railroads has continued to lag."

"Lumber business has been better this month and building supplies generally have benefited from the modest improvements in private construction operations."

## Huge Chart Aids Senators Tracing Lobby Activities

Before this huge chart showing the manifold ramifications of the Associated Gas & Electric Company system, with its interlocking directorates, its holding and subsidiary companies, sit the five senators who are delving into the setup of the corporation and its alleged activities in the lobby against the holding company "death sentence." From left to right as they heard evidence in the investigation are Senators Ernest W. Gibson, Vermont; Lynn J. Frazier, North Dakota; Chairman Hugo L. Black, Alabama; Sherman Minton, Indiana; and Lewis B. Schwelb, Washington, whose shafts have made many of the witnesses equivocal.

**Auxiliary Notes**

The August social meeting of the Women's Auxiliary met in the home of Mrs. Sallie Ector and Mrs. W. H. Ector Jr. Monday afternoon. Ten members attended the meeting which was opened with a devotional Bible reading from the Gospel of John by Mrs. Lee Holt and followed by a prayer led by Mrs. Butler. During the business session it was decided to give an ice cream supper Friday evening at the court house to pay off the small balance of debt on the church repairs.

After a pleasant social hour the hostess served punch and sandwiches to the following guests, Mrs. Holt, Mrs. Butler, Mrs. Pilkinton, Mrs. Hubbard, Mrs. Wilson, Mrs. Williams, Miss Kathryn Holt and Miss Bessie Trimble.

### Admits Plot to Murder Husband

New Jersey Wife and Farm Lover Arrested After Killing

SALEM, N. J.—(AP)—Prosecutor W. A. W. Grier announced Wednesday night that Mrs. Margaret Fox Dolbow admitted she plotted the slaying of her farmer-husband with her friend, Norman Driscoll, and paid \$25 to have it done.

The 28-year-old widow of four days and her former-neighbor were arrested and charged with the slaying of her husband, Harry Dolbow, 34, beaten to death with an iron axle bar last Friday night as he did his chores in his farmyard.

Three men—Wilbert Drummond, 35, farmhand for Dolbow; John Dennis, 34, who works for Driscoll, and Alfred Harris, 34, of Salem—are held as material witnesses.

Mrs. Dolbow's statement, Grier said, was made after several hours' questioning. In it, the prosecutor said, she asserted she "did not know the murder was going to be committed" that night, but that she knew that "one of these nights they were going to murder him."

"She admits that she and Driscoll, her lover, had planned to murder her husband for the past three months," Grier said.

## Masonic Lodges Banned by Nazis

Last of Order Will Be Abolished in Germany by Saturday

BERLIN, Germany—(AP)—The end of all Free Masonic lodges in Germany and the abolition of more world war veterans was announced Thursday.

Hitler's newspaper, Völkischer Beobachter, stated that by Saturday the last Masonic lodges in the Reich would be dissolved.

**Violence Renewed**

BERLIN, Germany—(AP)—Reports of anti-Jewish violence, mass meetings and what apparently was the suicide of a Jew in "protective custody" marked Naziism's drive Wednesday night against non-Aryans.

An official announcement said that more measures would be adopted to halt the stream of Jews pouring into Berlin from the provinces for safety.

In small towns the drive against the Jews continued unabated. At Gladbach, Karl Frenkel, a Jewish cattle dealer, who was taken into "protective custody" on a charge of racial turpitude, died from injuries when he apparently jumped from the third floor of the jail.

Authorities of Bavaria closed the Turk hotel at Bad Teulz, an exclusive Jewish establishment, on the ground that the Jews' behaviour had brought protests from all Aryans at the spa. (The Jewish Telegraphic Agency said the burgmaster ordered all Jews to leave Bad Teulz within 24 hours and that 350, including sick and aged, were affected.)

**Insult's Pension Restored to Him**

\$21,000 a Year Returned to Fallen Utility King by Companies

CHICAGO—(AP)—Samuel Insull, once possessor of a vast fortune, became a pensioner Wednesday. Directors of the four companies he developed into one of the nation's largest utility systems voted to put him back on the annuity rolls from which he was removed 17 months ago while he was in Europe, desperately striving to keep from going on trial for use of mails to defraud.

Announcement of Insull's reinstatement was made by James Simpson, chairman, and George A. Ramsey, vice chairman of the boards of all four corporations—the Commonwealth Edison Company, Peoples Gas, Light & Coke Co., Peoples Gas Subsidiary, and Public Service Company of Northern Illinois.

Through the annual income voted Insull would not pay the cost of upkeep on one of the huge estates he formerly owned, the four utilities paid him \$21,000 a year prior to his removal January 1, 1934. He was ordered reinstated as of the same date.

At the rate he formerly drew, Insull has due about \$23,000 for the last 17 months.

## Disturbing Japan's Peace of Mind

This is the cartoon that caused the Japanese Foreign Office to order Ambassador Hirota Sato at Washington to take "proper measures," in protest against the "insult" to his emperor, thus turning a good natured caricature into an international incident. ## WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep . . . Vigor . . . Vim

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints a day and get rid of more than 3 pounds of waste matter, your body will take up these poisons causing serious trouble. Don't wait. Ask

## County Poor; Open Up Doors of Jail

Judge Stephens Turns Last Three County Prisoners Loose

County Judge H. M. Stephens Tuesday unlocked the doors of the county jail and told all prisoners to come on out as the county wasn't able to take care of them any longer.

Only three prisoners were in the jail at the time of the judge's order, all these being for minor offenses, and reported to be under good bonds for appearance.

The county would, of course, keep any prisoner in custody where the offense demanded, but the judge said he did not see any use in keeping prisoners convicted of misdemeanors in the jail at the expense of the county, where county funds were already inadequate to pay the expenses of government.

There were fewer prisoners in the

jail at the time of the judge's turning them out, than at any other time during the past year or more. Several times in recent months the jail population has reached such proportions as to be a considerable drain on the county's finances for upkeep.

## Cotton Is 30 Days Later This Season

1,630 Bales Ginned in August Last Year—Only Few in 1935

That there will be very little cotton ginned in Hempstead county prior to September 1 this year, is the opinion of practically all of the ginners and large growers.

Last year there were 1,630 bales of cotton ginned in the county in August. This year it is estimated that there will probably be 100 to 200 bales. From September 1 until October 15 last year cotton was ginned at the rate of about 300 bales per day with about 90 per cent of the crop out of the way by the latter date.

This year the ginning season will be in full swing about the time it was falling off in 1934. October will probably see more cotton ginned than September, which has not been the case for the past several years.

All county ginners are getting their establishments ready for the fall season and some of them state they will have a few bales to gin the latter part of August. There will be several bales ginned locally possibly the last week in August, says B. A. Springs operator for the Washington Gin Co. Ozan will begin ginning about September 1 according to C. D. Ball, Ozan ginner.

## HARRY GRAYSON

NEW YORK.—Described by veterans of the harness turf as having all the qualities which made Peter Manning, 1:56 1/4, the fastest trotter that ever lived, Harry Grayson, son of Guy Abbey, now appears to have a strange hold on the \$40,000 Hambletonian stake, to be raced in the little cross roads town of Goshen, N. Y., on August 14.

Grayhound, which topped the 2-year-olds in 1934 in victories, seems capable of keeping his record clear this season. This sterling standardbred, owned by E. J. Baker, of St. Charles, Ill., and driven by tall Sep Palin, of Indianapolis, has not dropped an encounter thus far in the campaign. Fairly sucking the track right out from under him, so long and sure is his stride, Grayhound scored his third victory of this year's Grand Circuit grind in Toronto the other day by clicking off a mile in 2:02 1/4. The best that Lord Jim could do in capturing the Hambletonian a year ago was 2:02 1/4.

Grayhound Takes Off in Final Quarter

Grayhound, which was one of the first two gray colts ever to start in the Hambletonian, traversed the final quarter-mile of his last start in 27 1/2 seconds. If he had maintained that speed for the entire mile, he would have come through in 1:50 and lowered Peter Manning's world record by 6 1/4 seconds. It goes without saying that Grayhound is regarded as the greatest trotter since Peter Manning was at his peak in 1923.

Grayhound will have an easy time of it from now until the 10 or 12 starters go to the post for the tenth renewal of the Hambletonian on the three-sided mile track at Goshen, one of the fastest in the world. Grayhound will not again meet his toughest rivals until that afternoon, since payments were not made on him for competition at Rockingham Park, which just precedes the Goshen card.

Some contend that this rest will not help Grayhound, particularly with his chief rival, Tilly Tonka, expected to improve with experience, gained at Rockingham. Tilly Tonka is reported by many seers not to have shown all the speed of which she is capable. She is piloted by Hard Luck Fred Egan.

Hambletonian Hardly a Two-Horse Race

In Lawrence Hanover, Prince John, and the one-eyed Volo Arion, Grayhound and Tilly Tonka can anticipate grief in the Hambletonian. Silver King, the second gray and probably the handsomest animal ever to face the barrier in the Hambletonian, also is a contender.

Dr. Hugh M. Parshall, who bagged the 1934 Hambletonian with Lord Jim, is too busy getting Lawrence Hanover in shape to fret about what his numerous and hard-to-beat opponents are doing.

Here is a strong team. Lawrence Hanover, owned by the LaSalle Stable of Chicago, set a world mark of 2:02 as a 2-year-old. He is a bay colt by Peter Volo, out of Miss Bertha Dillon, and a full brother to Hanover's Bertha, 1:59 1/2, which prevailed in the 1930 Hambletonian.

Duc Parshall, a veterinarian of Urbana, Ohio, has led Grand Circuit drivers to victories for the past seven years. If Lawrence Hanover cops this year's Hambletonian, Parshall will be the first pilot to twice take the Kentucky Derby of the harness world.
